

## **NEWSLETTER 4B OF 2010/2011 (MARCH 2011)**

Dear Member,

Very shortly, the Branch will be using a different account for circulating emails. This will not affect you in any way and there is nothing that you need to do because of this change. If and when you reply to future emails, your response will continue to be directed to the existing email account i.e. secretary@manutd-gibraltar.com.

New emails that you compose to send to the Secretary should continue to be sent to that address. Unless otherwise requested to do so, you should not send emails to the new account.

There are three main reasons for effecting this change: -

a) Gibtelecom is restricting the number of recipients to which emails can be sent (via a single email) to a maximum of 30. This means that the Secretary has to maintain various groupings within his system and send several emails every time he has to issue membership-wide communications;

b) Given that the information is held by the Secretary alone, there is a potential continuity problem if, for any reason, the information became irrecoverable (it should be pointed out at this stage that the committee is looking into all areas of security & continuity regarding club business); and

c) A change in the system will enable nominated members within the committee to communicate with the membership on other matters, such as a change of match date or Branch functions

As always, the Committee seeks your cooperation in keeping us up to date regarding any change of your registration details, including your email address.

THE COMMITTEE
